

2004 – 2005 Carl Perkins Grant Requisition

1. Brother 2700CN Color Laser Printer
2. Canon A95 digital camera

Lesson Plan

Objective:

- The student will learn the basic operation of the Canon A95 digital camera.
- The student will use the camera in the development of personal web pages as well as school wide web pages.

Lesson:

By the use of Teamboard Technology students will demonstrate the procedures followed develop web pages for the Battle Creek Public Schools internet site. The site created by the students must incorporate pictures taken from the Canon A95 digital camera, a scanned image, as well as a multitude of other hyperlinks.

Assessment:

Student evaluations will be completed by all students using a rubric to evaluate all the steps and criteria required to fulfill all requirements of successful web page development.
